Subject: Revised TRAS account (Shortfall/ Emergency) for the week no. 28 to week no. 53 of FY 2023-24.

महोदय/ Sir,

Please refer to the TRAS account for the period mentioned above issued by this office for week no. 28 to 53 of FY 2023-24 from time to time. In the statements, TRAS charges and payment to TRAS provider from Deviation and Ancillary Pool of NR have been revised due to following reason:

Open Cycle Generation by NTPC Limited's Gas Stations in NR due to schedule given under ancillary services for the period October, 2023 to December, 2023 and January, 2024 to March, 2024 were certified vide NRPC letter no. CEA-GO-17-14(11)/2/2023-NRPC-dated 05.06.2024 and 14.06.2024. Accordingly, revised TRAS statement is prepared by considering variable cost from Closed Cycle cost (in paise/kWh) to Open Cycle cost (in paise/kWh) for the scheduled energy certified as Open Cycle Generation.

Since, variable charges w.r.t. closed cycle cost (in paise/kWh) to be paid to TRAS providers have already been accounted for in TRAS Accounts issued by NRPC sectt. from time to time; additional amount (or) differential variable charges receivable by TRAS providers from Deviation and Ancillary Pool of NR (in Rs.) for certified Open Cycle Generation for the subject cited period is given at **Annexure**.
