Subject: Review of planned outages from 1st September 22 to 15th October 22

Madam/Sir,

A meeting regarding coal supply issues to the power plants was chaired by Secretary(P) on 03.06.22(Minutes of the Meeting is attached as Annexe). The planned outages of thermal capacity in the month of Sep & Oct, 22 was discussed. As per CEA LGBR 2022-23, it was appraised that all India thermal capacity outage would be of the order of 15000MW in the month of September 22 and 7500MW in October 22. It was opined that hydro and wind generation would come down drastically in these months, hence 15000MW planned outage of thermal capacity could not be affordable in these months.

In view of the above, it was decided that efforts should be made to reduce the all India planned outage in the month of Sept and Oct 22 and should be kept as minimum as possible. Following has been directed during the meeting:

Quote

As discussed in the meeting, planned outage from 01st September to 15th October 22 should be minimum possible so as to have adequate capacity available to meet the expected demand.

Unquote

Accordingly, all planned outages of thermal units during the month of September 22 to 15th October 22 may please be discussed among all stakeholders and ensure the bare minimum planned outage of thermal units in aforesaid months so that all India electricity demand in the upcoming months could be met without any constraint.

Yours sincerely,

(Debasis De)

Minutes of the daily review meeting held under the Chairmanship of Secretary on 03.06.2022 at 2.15 PM to review coal and power supply.

List of Participants is at Annexure.

The decisions taken during the meeting were as under:

1. During discussion NPTC informed that they are getting less rakes, defective rakes leading to delay in unloading of coal. Secretary (P) directed CMD, NTPC to write a letter to Chairman, Railway Board on the matter. **(Action: NTPC)**
2. CEA was directed to include RCR lifting by NTPC in RCR materialisation. **(Action: CEA)**
3. RCR lifting of KPCL and Haryana has not yet started and in case of Tamil Nadu and AP the lifting is insufficient. DO letter be issued to Secretary (Coal) for de-allocation of RCR coal to KPCL and Haryana (HPGCL). A separate DO letter to be issued to Tamil Nadu and AP for improving lifting of RCR. The de-allocated coal may be re-allocated to those willing GENCOs having higher RCR materialization. **(Action: Thermal Divn.)**
4. The coal stock at some of the NTPC stations are getting exhausted and need additional allocation of coal. DO letter from JS (Thermal) be issued to JS (Coal) for necessary action as NTPC are performing well on blending and generate a third of the country's power. **(Action: Thermal Divn.)**
5. Letter to be sent to Ministry of Coal and CIL with projected generation and consequent coal requirement for 2023-24. **(Action: CEA)**
6. As discussed in the meeting, planned outage from 1st September to 15th October 2022 should be minimum possible so as to have adequate capacity available to meet expected demand. **(Action: POSOCO).**
